ENVIRONMENTALLY FOCUSED

Through reverse engineering, the High NRG Foamer System **eliminates indoor and outdoor environmental issues** and concerns like no other commercial carpet cleaning system or method.

A green cleaning system with:

- Low power usage/carbon footprint
- Low water consumption
- Biodegradable cleaning ingredients
- Relief for landfills through carpet longevity
- No waste water production

ECO-RESPONSIBLE & EARTH FRIENDLY

DESIGNED FOR USE IN OCCUPIED SPACES

A non-toxic, less disruptive solution for cleaner carpet.

- Foam formulated to minimize risk of breathing issues and chemical sensitivities
- Faster drying time reduces risk of slips or falls
- Low decibels and quiet operation
- Meets criteria for LEED certified buildings
